

## FIRING SQUAD SET; REPRIEVE GIVEN TRAITOR

PARIS, Sept. 20.—As a firing squad awaited him in Vincennes Woods, Pierre Lenoir, condemned traitor, was reprieved that he may make revelations.

Lenoir, after a trial with Senator Humbert and others, had been sentenced to death on a charge of giving military intelligence to the enemy.

The firing squad already had taken its place and preparations were being made to escort Lenoir out to meet death when he begged to be confronted with former Premier Calhoun, who is under charges similar to those on which Lenoir was convicted.

The arrest of another member of the chamber of deputies and also of a prominent newspaper owner is said to be expected soon in connection with Lenoir's statement, and it was even asserted that his revelations might cause a reopening of the Humbert case.

Lenoir's escape from the waiting executioners was almost miraculous. Captain Julien declining to postpone the execution, signing the register of the State prison, accounting for Lenoir, and ordering Lenoir to proceed to enter the waiting automobile which was to convey him to the Vincennes wood and death. M. DeMolines, Lenoir's lawyer, nearly had an altercation with Captain Julien to secure a few minutes respite for the prisoner that he might telephone to M. Lignac, under secretary of state for military justice.

M. DeMolines secured a reprieve of an hour for the prisoner, then entered an automobile and raced to the home of M. Lignac who received him in his night clothes at 8 o'clock in the morning and made the stay of execution of the sentence indefinite.

## BALTIMORE HOPES FOR RATLESS CITY

BALTIMORE, Sept. 20.—J. L. Nichols, the "rat killer," returned to Baltimore yesterday and had a conference with Health Commissioner Blake over details of the campaign to rid the city of rats, to start next week.

Commissioner Blake has received from the United States Department of Agriculture a large supply of pamphlets and other literature relating to rats, and the destruction for which they are responsible. This literature will be distributed broadcast over the city.

"I am convinced," Dr. Blake said last night, "that a systematic campaign, with everybody helping, will make Baltimore ratless this fall."

For the first time in its history Lexington market is reported to be ratless, as a result of the experiment there last week.

## PIERRE Lenoir, condemned to death by the French government for communicating military intelligence to the enemy, was granted a reprieve just as the firing squad was taking its position for the execution.

## WATER POWER UP IN SENATE NEXT

Water power legislation will follow the peace treaty in the Senate, according to the state virtually agreed upon by the leaders today.

The House has already passed a bill creating a Federal commission to control the water power sites of the Government and setting forth provisions for the water power resources of the United States. Senator Jones of Washington, chairman of the Commerce Committee of the Senate, had hoped that this bill might be brought up in the Senate and passed during intervals in the consideration of the peace treaty.

Senator Jones gave notice that he would oppose any attempt to get the bill before the Senate until the peace treaty has been disposed of.

"This bill is too important a measure to be taken up at this time, during the consideration of the peace treaty, and I shall oppose any motion to bring the bill up until the peace treaty is disposed of," Senator Lenoir said.

Senator Jones has virtually agreed, in view of the attitude of Senator Lenoir, to let the water power bill rest until the peace treaty has been finally disposed of, but he will call for constant consideration of the bill after the peace treaty has been put out of the way by the Senate.

Senator Jones stated that he would attempt to force the bill through before the end of the present session.

## BANDITS IN CAMERA WAR ON MARINES
